SUMMARY

Senior Mobile Application Engineer with 9 years of experience architecting, building, and **deploying 100+** production mobile apps using Flutter and Native Android (Kotlin/Java). Led small teams (2–3 developers) across requirements, CI/CD, automated testing, and App Store/Play Store releases. Expertise includes BLoC, Provider, Riverpod, secure payment integrations, and offline-first architectures.

EXPERIENCE

Senior Flutter Mobile Application Engineer

Freelance (Self employed)

Ahmedabad, Gujarat, India

August 2025 - Present

- Architected and delivered cross-platform apps, improving load times by 20% on average.
- Gathered technical requirements and scoped milestones, delivering 3 agile releases on schedule.
- Integrated CI/CD pipelines and automated tests, reducing production hotfixes by 30%.

Senior Flutter Mobile Application Engineer

Jbk Technologies Pvt Ltd

Ahmedabad, Gujarat, India

June 2021 - July 2025

- Spearheaded deployment and launch of 100+ cross-platform mobile apps on Play Store and App Store.
- Implemented pixel-perfect, responsive UI with designers, increasing user app downloads by 15%.
- Audited and integrated 15+ third-party SDKs and REST APIs, improving feature reliability and performance.

Senior Android Developer

Hexagon Innovations Pvt. Ltd

Ahmedabad, Gujarat, India

April 2018 - May 2021

- Optimized Android apps, reducing runtime crash rates by 30% and improving satisfaction by 20%.
- Built scalable localization architecture supporting 6+ languages without core code changes.
- Mentored 2 junior interns on Kotlin standards, reactive patterns, and native Android design guidelines.

Android Developer

WayToWeb

Ahmedabad, Gujarat, India

September 2015 - March 2018

- Developed and tested native Android modules, supporting releases of 2 Google Play Store apps.
- Configured Bluetooth thermal printers, reducing hardware setup time by 20% via standardized pairing.
- Implemented background sync for offline workflows, cutting data sync failures by 25%.

EDUCATION

Computer Engineering, Bachelor of Computer Applications

Harivandana College of Information Technology

May 2014

12th, Higher Secondary Certificate

Shree Maruti Vidhyalay

March 2011

Courses: HSC

SKILLS

Mobile App Architecture:

MVVM, Clean Architecture

Cross-Platform Development:

Flutter, Dart

Native Android Development:

Kotlin, Java

State Management:

BLoC, Provider, Riverpod

Languages:

Dart, Kotlin, Java, Basics of Swift

Frameworks:

Flutter, Android SDK

Databases & Cloud:

Firebase (Firestore, Authentication, Cloud Messaging), SQLite, Hive, Room, Realm

Integrations:

REST APIs, WebSockets (Socket.io), GraphQL, Push Notifications (FCM), Google Maps & GPS Tracking

Tools & Platforms:

Git, VS Code, Android Studio, Xcode, Google Play Console, Apple App Store Connect

AI & Productivity Tools:

Windsurf, Google Gemini (AI-assisted development & code optimization)

PROJECTS**Bidsquare & Bidsquare Vault Mobile**

E-commerce & Inventory management

Technologies: Flutter, Dart, Android Studio, iOS Swift, Xcode, Firebase. Description: Spearheaded the end-to-end development of a curated live-auction marketplace application and its secure inventory cloud companion. Implemented comprehensive REST API endpoints, embedded web-views, secure multi-tenant environment product flavors, and instant Firebase push notifications.

Giivlatto

Lottery management system

Description: Built a highly secure digital lottery application featuring traditional automated drawing logic. Designed and implemented multi-language support. Engineered strict geo-fencing restrictions and integrated local payment gateways (QPay Mongolia). Technologies: Flutter, Dart, , Geo-location APIs.

MyClassCampus & Pocket Study

School Management ERP software

Technologies: Android Kotlin, Java, Socket.io, Realm DB, Room DB, live GPS, Video SDKs Description: Programmed an enterprise school ERP solution and digital academy platform. Established an offline-first architecture utilizing Room and Realm databases, built real-time communication modules via Socket.io, and successfully integrated live GPS tracking alongside multi-platform video conferencing tools (Zoom, Jitsi, Google Meet).
